

Enable calling in Microsoft Teams through your business phone system with **IPT for Teams**

IPT for Teams is a simple add on to Office 365 that unifies Microsoft Teams with the IP Telecom Hosted phone system allowing making and receiving calls on any device using the Microsoft Teams App via your business phone system.

What is IPT for Teams?

IPT for Teams from IP Telecom is a fully cloud based service that combines the collaborative power of Microsoft Teams with the IP Telecom hosted PBX phone system.

Now you can bring all users under one collaboration platform by using Microsoft Teams for collaboration, messaging and voice across all devices.

Why customers use IPT for Teams

- ✓ Enable Calling in Teams experience without needing any hardware or software.
- ✓ Use your existing numbers and facilities combined with our cloud PBX. No disruption. Any call center or compliance features stay as they are.
- ✓ A simple monthly subscription cloud service that can be delivered to selected users.

Full Teams Experience

Add calling to teams to increase productivity and unify remote teams.

The native Teams calling experience is familiar to users therefore, get the best of both worlds and work on desktop and mobile to free your workforce.

Simple Deployment

Embed your business phone system with all the features you rely on into MS Teams.

No hardware or software to install. Only need to enable the solution for users and groups that need it. Can be deployed in hours across the globe.

Enterprise Level Service

Global infrastructure in Microsoft Azure with around the clock monitoring and support. Enterprise grade encryption and security already built in.

Low risk, non disruptive, cost effective.

We didn't just save money on our phone bills, we chose to work with a telecoms provider that put their customers first.

The customer service and support from IP Telecom really sets them apart in their field. We wouldn't rely on anyone else to deliver our voice traffic.
